

FLIGHT AND LOAD TEST REPORT - EN 12491:2001

The model describe hereafter is in conformity with the flight and load tests carried out by:
Air Turquoise, official test laboratory of Switzerland

Certification number:	EP 089.2013
Manufacturer:	MCC Aviation SA
Model:	SOS micro
Type:	L
Maximum weight in flight:	115 kg

FLIGHT TEST

The emergency parachute system has not suffered any permanent deformation.

<i>date</i>	<i>place</i>	<i>hPa</i>	<i>wind</i>	<i>temp</i>	<i>humidity</i>	<i>opening</i>	<i>sink rate</i>
01.02.2007	Villeneuve	981.2	2.9 km/h	0.9°	87.7%	fast	5 m/s
16.02.2007	Villeneuve	974.9	8.6 km/h	5.5°	76.4%	fast	5.4 m/s

LOAD TEST

The emergency parachute system has not suffered any permanent deformation or failure of the primary structure.

<i>Date</i>	<i>Place</i>	<i>Open shock</i>	<i>Speed of opening</i>	<i>remark</i>
30.12.2006	France	40 m/s	<5 seconds	Aerotests (FFVL)
30.12.2006	France	40 m/s	<5 seconds	Aerotests (FFVL)

Best regards,

Alain Zoller
